**Subject:** Updated Agenda

Revised  
nda\_6.24.04 Meetin

Kim:

Attached please find an updated agenda for our meeting in Phoenix on June 24. It reflects some adjustments to the times from the last draft and includes the addition of a data management/stats topic. The times aren't fixed in stone; they're targets just to make sure we get through all agenda points.

Regarding Clinimetrics' participation - our intent is that they will only need to participate in the first half of the meeting (through lunch).

If you have questions or additional points to add to the agenda, please let me know.

Thanks,  
Valerie
